December 16 Is Date Set For '44 Elections

Institute Committee Approves Its Budget For School Year '42-43

Elections of the officers of the class of 1944 and the election of the permanent president, permanent secretary, and class marshalls of the Class of 1943 will be held on December 16, it was decided yesterday at the Institute Committee meeting at 5:00 P.M. in Litchfield Lounge. This motion, originally brought up at the last meeting to include all classes, was amended today after further study by the Elections Committee to include only the two classes directly involved.

It is necessary that the class officers of the Class of 1944 be elected for next year before the present Senior Class graduates, as the president of that class is also the president of the Institute Committee. It is also necessary to choose the Executive Committee of the incoming Institute Committee and have it approved by the outgoing men.

1942-1943 Budget Approved

In a motion brought up after the by-law concerning publication of motions had been waived, the budget for the 1942-43 school year for the Undergraduate Organization was approved. This budget, amounting to a total of \$4,351.04, is divided into three funds: Institute Committee, Classes, and the Reserve and Contingency Funds.

Under the appropriation to the
(Continued on Page 4)

Debaters Oppose Williams Today

Technology To Present Both Sides Of Subject

This evening from 5:00 P.M. to 6:00 P.M., in Tyler Lounge, the M.I.T. Debating Society will meet a team from Williams College. The subject is to be: "Resolved, that the United Nations should establish a permanent federal union with power to tax and regulate international commerce, to maintain a police force, to settle international disputes, and to enforce such settlements, and to provide for the admission of other nations which accept the principles of the union."

Both teams will be composed of freshmen. Technology's representatives, John J. Freiburger, '46, and George R. Dvorak, '46, presenting the negative arguments.

Second Debate at Williams

Simultaneously with the debate in Walker Memorial, another team from Technology, composed of John Mitchell, '46, and James W. Shearer, '46, will be at Williams College, debating on the same subject. In this debate Technology will have the affirmative side.

The Tech To Hold First Social Event Of Season

The Tech will hold its first social event of this year tonight in the form of a bowling party, which is to run from 9:00 P.M. to 12:00 midnight. This party is open to all members of The Tech staff, and to candidates for the staff, along with their dates. Refreshments will be on hand for everybody present.

This is to be the first event to parallel last year's social program, which included a bowling party, the annual banquet, and the strawberry festival in the spring.

Collegiate Who's Who To List Twenty Technology Seniors

Twenty outstanding Technology seniors have been chosen to appear in the 1942-43 issue of "Who's Who Among Students in American Colleges and Universities." This is the first time that men from the Institute have been so honored.

These men have been chosen on the basis of character, scholarship, leadership, and judged as having performed creditably in Institute activities. They will be ranked among the similarly chosen students from most of the colleges and universities in the country. As this book is consulted by many personnel managers of the larger business concerns throughout the United States a place in its pages means a great deal to the men selected.

Thespians Will Open Tonight

To Be Presented In Peabody Playhouse

The first performance of "You Can't Take It With You," the M.I.T. Dramashop's Fall production, is to be given tonight at 8:30 P.M., in the Peabody Playhouse, 357 Charles Street, Boston. It will be followed by another performance tomorrow night. According to Robert L. Mitchell, production manager, "Both the cast and the management have been neglecting their studies to make this play a success."

Because this is Dramashop's last production before graduation, it has been put almost entirely under the management of Seniors, to give them a last chance to participate in a production. The properties department, under the direction of Guy B. Stearns, '43, has had to meet and solve such problems as the obtaining and operation of sky-rockets, firecrackers, xylophones, and accordions. Credit must also go to the art group, consisting of Professor Dean M. Fuller, L. Gerald Firth, '43, and Robert L. Mitchell, '43, under the direction of Jorge Ross, '43, who are responsible for the many surrealistic portraits on the set.

Members of the Cast

Although freshmen and Sophomores form a large part of the

T. C. A. Frosh Elections Held

Officers of the T.C.A. Freshman Cabinet were elected yesterday afternoon at a meeting of the cabinet in Tyler Lounge of Walker Memorial. Thomas B. Lacy, '46, was chosen president for the coming year and H. Carlton Howard, '46, was elected vice-president. The secretary-treasurer post is to be filled by Harry F. Davis, '46.

Sid F. Atlas, '43, and Langdon S. Flowers, '44, took charge of the meeting until the new officers had been picked. The meeting then was devoted to making arrangements for the forthcoming Wellesley-Technology Dance. Band, transportation, tickets, and publicity committees were appointed to handle all the arrangements.

The dance, a barn dance complete with old clothes and a caller, will run from 8:00 P.M. to 12:00 Midnight on November 28.

"The dance looks like a real success," said Sid Atlas. "The Wellesley girls have already signed up and showed a great deal of interest in the coming affair."

Admission is to be limited to freshmen and Sophomores up to two hundred in number. The sign-up list will be posted later by the tickets committee. Arrangements for transportation back from Wellesley will be made to insure the Technology students getting back.

The following men were selected as the Institute's representatives:

Frank E. Briber, Jr. Budget Committee, Chairman (4), Institute Committee (4), Executive Committee (4), Intra-fraternity Conference (4), Tau Beta Pi.

S. Richard Childerhose. Class Pres. (4), Institute Committee (2), Class Secretary-Treasurer (1), Elections Committee (3), Executive Committee (4).

Waldo F. Davis, Jr. Institute Committee (4), Beaver Key Society (3), Vice-President (4), 5:15 Club (1, 2, 3), President (4).

Warren E. Foster. Institute Committee, Secretary (4), Inter-fraternity Conference (2), Dance Committee Chairman (3), Chairman (4). The Tech (1, 2, 3), Personnel Manager (3).

Bishop Elected Head Of Beaver Club Last Night

Botten and Heckel Also Elected To Positions; 18 Initiates Announced

At a meeting of the Beaver Club held last night at 5:00 P.M. in the Faculty Lounge of Walker Memorial, the new officers of the club were elected and the names of the new initiates were announced.

The following are the officers elected to serve the term 1942-1943: Warren A. Bishop, '44, president; William H. Botten, '44, secretary-treasurer; and Alfred H. Heckel, '44, vice-president.

After the election of officers the following initiates were announced: Robert Nicolait, '44; Seth E. Bransby, '44; Sten Hammarstrom, '44; Harry L. Dickey, Jr., '44; Samuel K. Taylor, '44; Edward H. Cumpston, '44; Walter P. Swain, Jr., '44; Malcolm McFaul, '44; James Woodburn, III, '44; Robert A. Plachta, '44; Joseph L. Kaufman, '44; Frederick J. Blatz, Jr., '44; Dixon H. Ward, '44; Lewis Tyree, Jr., '44; Vance G. Raynsford, '44; James McIntosh, '44; Beverley B. Tucker, '44; and Arthur F. Peterson, Jr., '44.

At 5:00 P.M. on Monday, November 16 there will be a meeting of the old members of the club in the Faculty Lounge and at 5:30 P.M. the new initiates will meet in the lounge to receive notices pertaining to the club.

Former Technology Men Promoted At Air School

Aviation Cadet James R. Eberly, '42, former member of the Quadrangle Club and Delta Kappa Epsilon, has been appointed commander in the corps of aviation cadets of the Army Air Forces Pre-Flight School (Pilot), Maxwell Field, Alabama, where he is receiving an intensive course in ground training preparatory to primary flight instruction.

Also appointed to the cadet corps of officers is Cadet Harry P. Wood, former assistant to the head of the department of Business and Engineering Administration, who was named Corps Adjutant. Wood is from Muny, Pa.

Both of these former Technology men, upon the completion of their training, will be sent to one of the many primary flying schools in the Southeast Army Air Forces Training Center.

Group Table Reservations For Junior Promenade To Start Monday Nov. 16

Q Club Will Check Freshman Tie Wearers

Because of many reports that freshmen are violating the rules concerning freshman ties, the Quadrangle Club, Sophomore honorary society, will begin a drive in the near future to make sure that freshmen are still wearing their ties.

The rules regarding freshman ties were made by the Institute Committee to instill spirit into the freshmen, rather than to humiliate them, and it is in this spirit that the Quadrangle Club drive will be made.

Frosh, Counselors Questioned About Camp On Campus

Because of the shift of Freshman Camp from Lake Massapoag to the Institute campus this year, it is felt certain difficulties have occurred and revisions have become necessary. Accordingly, in an effort to sound out both the counselors and the freshmen on possible changes, two questionnaires have been prepared for each group. These have been sent, together with letters of explanation, by Harry Ottinger, Jr., '43, chairman of the Freshman Camp Investigating Committee.

In the enclosed letter Ottinger states that "the difficulties imposed upon the T.C.A. by the war and the accompanying material and transportation shortages made it necessary that Camp be held on campus this year as you already know. Because it was something new and because we feel that it will be with us for at least a few years to come, we believe that there is much room for necessary improvement in this camp on campus."

Questions Cover Camp Activities

The questions are of a nature which serve generally to throw light on the manner of presenting the various features of camp activities. In both questionnaires, for instance, several suggestions are presented as to what plan of formal presentation of activities and ath-

(Continued on Page 4)

Radio Class Held By Tech Society

A group of forty-two persons attended the first meeting of the Radio Society's code and theory classes Monday night. Encouraged by the good attendance, the society is going ahead full speed with plans for the course. This first meeting was devoted largely to organization, so there is still time for those wishing to join the group to do so.

It was decided to continue holding the classes at 7:15 P.M. on Mondays in Room 5-108. Code will be given for the first half-hour, followed by instruction in radio theory. Those desiring instruction in only one of these fields are invited to come at the appropriate time and stay only for that part in which they are interested. The goal of the course is an Amateur Class B license, but every effort will be made in addition to present a sound radio background going beyond the bare requirements of the license examination. It is anticipated that demonstrations of the various radio phenomena will be given from time to time.

Five Fraternities Selected To Hold Cocktail Parties

Table reservations for the Junior Prom will start next Monday, November 16 in the Main Lobby of the Institute at 12:00 Noon. Reservations may be made for the remainder of the week from 12:00 Noon to 2:00 P.M. daily.

Because a new seating arrangement has been made for the convenience of the dancers, smaller tables will be used for groups of three couples. The larger tables, which are also more numerous will accommodate six couples. Each table must be reserved by a number of couples equal to that specified by the size of the tables: three or six couples.

Method of Making Reservations

The reservations this year are to be made by number rather than by name as has been done in the past. This necessitates only one member of a group to sign up at the Junior Prom desk in the Lobby of Building 10. He, however, must have a complete list of the ticket numbers of his group in order to reserve the table.

Five fraternities, instead of six as was previously announced, have been chosen to hold the Junior Prom cocktail parties on Saturday, November 21, from 4:00 P.M. to 6:00

(Continued on Page 4)

I. O. C. A. To Hold Dance At Simmons

Outing Clubs Meet On Bicycle Trip Sunday

Outing Club president, Walter G. Wells, '43, announced the second International Outing Club Association square dance is to be held beginning at 8:00 P.M. tonight at Simmons College. Several local colleges will be represented, among which are Harvard, Tufts, Sargent, Wellesley, Radcliffe, Simmons, and Technology.

Several of the above schools will participate in the I.O.C.A. bicycle trip Sunday. The members of the M.I.T. Outing Club who have signed up to go will meet at 9:00 A.M. in front of Walker Memorial. From here they are to proceed to the Bike Exchange to meet the other cyclers at 9:30, and then the whole group will ride out to the Wellesley cabin. The Radcliffe girls are to bring the lunches.

A bike trip has been planned for next week with Wellesley. Ten Outing Club members will leave Walker Memorial at 9:00 A.M., Sunday, November 22, to meet the Wellesley girls. From Wellesley they will ride until lunch, which the girls are to bring. For the lunch there will be a slight charge. Those who wish to go and do not have bicycles may rent one as usual at the Bi-X.

Cercle Francais de M.I.T. Sponsors Informal Dance

An informal dance will be held at 8:00 P.M. tonight in the 5:15 Club. It is sponsored by the Cercle Francais de M.I.T.

Radcliffe lovelies have been invited for the occasion, and the dance should be a gala affair. The girls will be admitted free of charge. Admission for non-members is 66c and 33c for members.

WATCH THOSE PROFITS

At the Institute Committee meeting last night, reports of two of the fall acquaintance dances were read to the members of that body. These reports of profits gained by two Class B activities showed widely divergent methods of bookkeeping and slipshod accounting. They gave as financial gains made on two very similar acquaintance dances two vastly different figures, almost \$400 in the one case and just a little over \$40 in the other.

The former was the affair sponsored by the Catholic Club on Friday, October 16, with approximately 725 paying customers in attendance. The latter affair was promoted by the International Club on Friday, October 9, with an alleged 450 paid admissions in a crowd that resembled a Saturday night assemblage at the Totem Pole.

We bring up this vast discrepancy between reported profits and the great amounts of money involved in the promotion of the two affairs to demonstrate the great responsibilities which these two Class B activities have assumed and the apparent mismanagement of at least one of the dances which has taken place. And this we offer as evidence that Class B activities, under the lax supervision that the Institute Committee holds over them have been making hay far exceeding the modest demands of the average Class B activity's budget.

The situation requires some sort of remedy. If the Class B activities who are involved command a large enough membership and perform a sufficiently large number of services, they deserve a Class A status under which their activities can be carefully controlled by the Institute Committee. If, on the other hand, these activities do not require the returns from the lucrative acquaintance dances to continue their usual enterprises, they should be forced to surrender the acquaintance dances to some Class A activity which can put the profits to better use.

STAFF ELECTIONS

The Tech takes great pleasure in announcing the election as honorary members of The Tech sports editorial staff: Mike Holovak, Frankie Sinkwich, Angelo Bertelli, Rocco Canale, Henry Mazur, Mickey Connolly, Freddie Naumetz, Paul Governali, and Bob Perina.

These men were selected for their outstanding contributions to the world of sports and their selection was in no way influenced by the sudden influx to VooDoo's staff of a number of the better known local football players. We hesitate to mention this sudden growth in the family of Phos but its annual recurrence during the fall season (immediately before the annual The Tech-VooDoo football game) begins to smell of lack of self confidence.

We cannot see why VooDoo should suffer from this lack of confidence in their own ability since they claim that they have never lost a game to The Tech stars. Of course the records of that organization may be a little hazy but their boastful arrogance for eleven months every year only serves to exaggerate their actions during the last month.

Study Of I. Q's Made At Colgate Rates Activities

Many have been the arguments between members of various college activities, about the respective amount of intelligence possessed by each. For this reason, interested and neutral observers made an extensive survey at Colgate based on I. Q. standings of all college groups. The result of their study should interest every student at Tech.

As for the meek little student whose name never appears on a committee, he's 3 per cent smarter than the average. A little cold water is thrown on most "big campus men", the fellow who belongs to all the clubs and appears at least a half-dozen times in the group pictures in his class yearbook. Statistics show that it's not the fact that he participates, but what he takes part in that gives a clue to his gray matter. However, the rating for men in minor athletics coincided with the average.

Ratings for men participating in social, religious, dramatic, musical, managerial and cheer-leading activities were found to be "slightly above average." Almost thirty per cent of the nearly 800 Seniors interviewed participated in no curricular activities. Men in student government placed second in the comparative list of group I. Q.'s.

But here is the most decisive and conclusive of the results one that should stop forever the remarks of certain Institute groups: the most intelligent group, nearly 16% above average, worked on student newspapers.

The Reader Speaks

Dear Sir:

After Pearl Harbor every patient who was hospitalized in time was saved from death by shock through the use of blood plasma. This is an exceptionally good record in view of the fact that shock accounts for a large number of fatalities in wartime. For the past few weeks the Red Cross has been intensifying its drive for blood donors at Tech. A few days ago your paper was proud to announce that so far forty-three people had volunteered to give a pint of blood to this drive; however, this optimistic announcement was based upon the fact that forty-three volunteers in such a short time was an indication that several hundred people would give a pint of plasma. The drive has thus far fallen way short of its goal because of a seemingly unforgiveable lack of interest in what becomes of soldiers wounded while fighting for us. We seem to forget that we are being insulted when we have to be reminded that we should do everything in our power to win this war. The Red Cross should not have to plead, beg, and send out circulars in order to get enough donors. We aren't doing anyone but ourselves a favor when we donate to this drive.

Certainly, if the armed forces can stay on duty in a mud hole on Guadalcanal for the rest of the war, we can spare a few minutes of our time to go to the Red Cross blood donation station. Great emphasis has been placed on the fact that the giving of a pint of blood is painless. Suppose it did hurt? The men in an attack platoon don't back out because they might get hurt. We have no right to call ourselves Americans unless we do everything possible. This is a land where no one leans on anyone else to do the dirty work; let's don't start now. There are 3,000 students at Tech. There should be 3,000 donors.

Signed,
 W. P. BROWN, '45.

The Editor of The Tech
 Dear Sir:

This is war. It is time for military science to become one of our major subjects instead of one of our minor ones. The qualities of leadership cannot be overdeveloped. Now that young boys of eighteen and nineteen are to fight with the armed forces of the United States,

(Continued on Page 4)

For Boys To Play

By Gene Schnell

... highlight of the weekend's entertainment will be centered about The Tech's annual bowling party tonight. This yearly social event is for the privileged members of The Tech Staff and their guests. Since this party will initiate the rigid training that The Tech Staff will undergo in preparation for The Tech-VooDoo football game scheduled Saturday of the Junior Prom weekend, suitable refreshments will be served. It has been mentioned by the higher-ups that a new liquid balance will be emphasized on the alleys. This is being done with an eye to the future game at which the waterboy traditionally doesn't serve water to the tired warriors.

... entertainment for the thespian-minded lads about Tech this weekend will be dished up by Dramashop with their presentation of "You Can't Take It With You" at the Peabody Playhouse both Friday and Saturday nights at 8:30 P.M. The popular Broadway hit promises good entertainment as seen by the interest taken by the players. A good deal of time has been put in the preparation of this first production of Dramashop this year, and it should be one of the musts this weekend.

... the Cercle Francais de M.I.T. will hold an informal dance Friday night at 8:00 P.M. in the 5:15 Club-

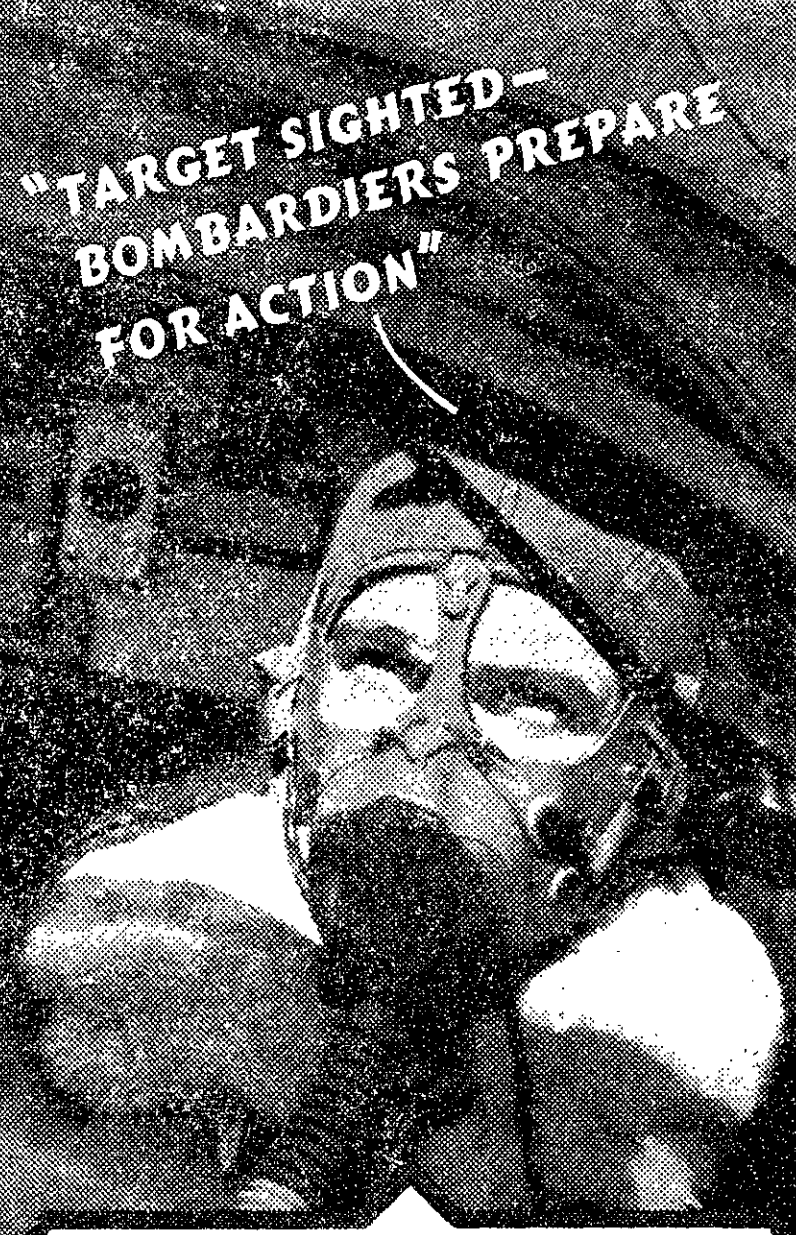

room in the basement of Walker. Girls have been imported from up Radcliffe way to attend the party. Admission to non-members will be sixty-six cents, while members will be admitted at a reduced price of thirty-three cents.

... the season's second I.O.C.A. square dance will be held at Simmons, making the fourth party for Friday night. Members from Harvard, Tufts, Sargent, Wellesley, and Radcliffe Colleges will attend, as well as Tech and Simmons. The hopping will start at eight.

... the lone fraternity dance on Friday will be held by the A.T.O.'s at Fry's Barn. The definitely informal barn dance will start rolling at 8:30 P.M. to the music of Bert Edwards. Rumor has it that a continuous hayride for the guests will hold sway through the evening. Refreshments will be served in the beer barrel way.

... entertainment for Saturday night will be handled by the Kappa Sigs at their chapter house at 33 Bay State Road, with the advent of their formal Punch Bowl Party. Chappie Arnold will start the festivities at nine o'clock and they are to continue through one. This being the first fraternity formal of the year, the Kappa Sigs take the credit for breaking out the tails and tuxedos—then again they might just be airing out the glad rags for the Junior Prom next weekend.

"TARGET SIGHTED—
BOMBARDIERS PREPARE
FOR ACTION"

FIGHTING WORDS
delivered by
Western Electric Radio

In the skies, Army planes fly and fight with radio command sets. On the ground, radio rides into battle in tanks—field telephones, wire and switchboards coordinate far-flung operations. At sea, radio, battle announcing systems and telephones transmit orders and reports.

Sixty years as manufacturer for the Bell System gave Western Electric the "know how" and facilities to turn out such specialized war-time equipment to "keep 'em in contact."

Dinghymen Will Conclude Fall Racing Schedule In Team Regatta Sunday

Beaver Skippers Will Compete In Novel Type Race

The Beaver tars will wind up the fall racing season on the Charles River this Sunday with a type of race which is novel in nature. Competing against eleven other schools under the sponsorship of the Northeastern University Yacht Club, the Tech sailors will participate in a team race regatta.

According to a bulletin issued by the I.C.Y.R.A., the race will consist of a series of four triangular and three quadrangular contests. The winners of the morning matches will meet in the afternoon, with the runners-up also racing one another. Nine boats will race in each division during the eliminations and the finalists will race for the trophy in three divisions, each qualifying college having a boat in each division. The Tech team will consist of Sam Parkinson, '44, Hal Boericke, '44, and Sid Greenwald, '43. After Sunday's races the Sailing Pavilion will close until next spring. The sailors have had a rather successful fall season, always managing to win or place high in any regatta in which they took part. Opening the season by a victory in the Pentagonal Regatta on the Coast Guard Academy racing course at New London, they proceeded to tie the Crimson for first place in the Greater Boston Regatta on the Charles River. In the second annual Erwin H. Schell trophy race, the Beaver tars ended in a tie for second place with Holy Cross, 2 points behind the winning Harvard squad. The freshman skippers have shown up equally well, amassing a total of 90 out of a possible 96 points to win their lone regatta from other favored teams.

Beaver Harriers To Enter I-C 4-A's

Cross Country Team Will Go To New York

Monday afternoon at 2:30 P.M. the Intercollegiate Amateur Athletic Association of America is holding one of the largest meets of the year at Van Courtlandt Park in New York. An expected twenty-six schools will complete in the meet.

Bob Miller, captain of Tech's team, Ken Joseph, '44; Harold Knapp, '45; Bob Cummings, '44; Robert Jevon, '44; George Zeigler, '44; and William Rockholz, '45, will represent Technology at the event. In addition to these boys, Oscar Hedlund, coach of the team, is taking two freshmen to New York. Frank Cassidy is definitely going and for the second choice it is a toss-up between Henry Henze and Otto Kirschner.

The teams will start seven men each which will make the grand total of 182 starters. According to Oscar this is the big race of the year. Colleges will be represented from as far as Michigan State and will include such notables as Yale, Dartmouth, St. John's, Brooklyn, Syracuse and Williams.

As in previous races most of these colleges will use freshmen in the varsity competition, but Tech will continue its policy of no freshmen in varsity competition.

SPORTS SCHEDULE

SATURDAY

Soccer, Dartmouth varsity vs. M.I.T., 2:30 P.M., Briggs Field.

Interclass track meet, 2:00 P.M., Briggs Field.

SUNDAY

Invitation Team Race Regatta (dinghy), Charles River Basin.

MONDAY

Varsity Cross Country, I.C.4A. meet, New York.

Classes Contest For Track Honors Tomorrow At 2:00

Hedlund's Prediction; Class Of 1946 Winner Of Meet With 56 Points

Tomorrow afternoon at 2:00 P.M. the Annual Fall, Inter-Class Meet will be held on Briggs Field. The meet, under the direction of Oscar Hedlund, coach of the track team, will include fifteen track events.

The following are the events in the order of running: 120 yard high hurdle, 2:00 P.M.; 100 yard dash, 2:15 P.M.; mile run, 2:25 P.M.; 440 dash, 2:35 P.M.; 220 low hurdles, 2:50 P.M.; 2 mile run, 3:05 P.M. ½ mile run, 3:20 P.M.; 220 yard dash, 3:25 P.M.; pole vault, 2:00 P.M.; high jump, 2:00 P.M.; javelin throw, 2:00 P.M.; broad jump, 2:30 P.M.; shot put, 2:30 P.M.

The hammer and discus throws will be held this afternoon at 3:00 and 3:30 P.M. respectively because the field will be used tomorrow for a soccer game.

According to Oscar, the class of 1946 will take the day. "On paper", says Oscar, "the freshmen will make a total of 56 points and will be followed by the Sophs who will gather 46 points. The juniors will take 43 and the Seniors 39, but the Seniors can win the meet if they go out for it.

"The class of '44 probably has the best material but the freshmen have it all over them in quantity and consequently they'll pick up the small points which will add up", said Hedlund.

Continuing his interview Oscar had the courage to pick the winners in every event, and The Tech prints them as he said them. The following are his choices: javelin, Maguire '46; shot put, Jester '45; high jump, Adams '44; broad jump, Meny '44; pole vault, Hilderbrand '46; discus, Jester, '45; Hammer, Wareham '44; low and high hurdles, Stewart '43; mile, Spear '45; 2 miles, Cassidy '46; 440 dash, Hall '43; ½ mile, Henze '46; 100 and 220 dashes, Meny '44.

"Meny and Stewart will probably be the high scoring members of the class meet, but I repeat", said Oscar, "my predictions depend on how practices look now, but actually the winner of the meet will be the one with most fellows out there on the field. During the past week there has been keen rivalry and high spirit among the

Beaver Feats

BY GARD SLOAN

Four Classes Vie For Track Supremacy

Tomorrow afternoon at the annual interclass track meet one of the four classes will be hailed as Institute track champion. In previous years the spirit and competition has been keen. This year's contest will be more keenly contested than ever.

Due to the fact that the first five places count, it is difficult to predict the winner or the scores, since the last four places amount to 10 points against the winner's 5 points. It will take more than winning each event to win the interclass meet tomorrow.

Oscar Predicts '46

Oscar Hedlund, having the recorded times and a personal knowledge of the tracksters, has predicted that '46 will take the day. Because of the large number of freshman out for Track, their score will be high by virtue of numbers alone.

In my humble opinion, however, the class of '44 will win the interclass track laurels tomorrow afternoon. Bob Meny in the dashes and broad jump, Johnny Adams in the igh jump, Dick Wareham in the hammer event and others will be the main stays of the '44 team. The class of '44, it may be remembered, was the winner of the spring interclass meet of last year.

Pistol Prospects Reported Excellent

Sergeant Frey's Recovery Spurs Team Activity

Due to the prolonged illness of Sergeant Samuel L. Frey, coach of the pistol team, activities of the team have been considerably restricted. However, with Sergeant Frey's recent recovery, prospects of both varsity and freshman divisions appear good, and practice is proceeding at an increased rate.

In spite of the difficulty of securing ammunition, practices have been held twice weekly since the first one, which took place on October 27. Use of weapons by the freshmen candidates has been restricted to those with previous experience, and on the varsity team to those who were on the team last year.

Action Starts In December

The freshman line-up has not yet been decided, but is expected to be formed within two or three weeks. The varsity team is fortunate to have again Gage H. Crocker, '43, high point man last year, and other varsity men. Official competition will start with the week of December 7, during which postal matches with Texas A. & M., Virginia Military Institute, Cornell, and Wisconsin are scheduled.

On the weekend of January 9, a match at West Point is planned, at which eight men of the team will compete. On the weekend of January 16, six men will travel to Annapolis for another competition.

classes, and it looks as if it's going to be a very good meet".

Prominent Tech alumni and former Tech trackmen will be officials at the meet. Entries will be accepted up to the time of the meet.

Beaver Soccermen Tie Jumbos By 2-2 Score

Hammer, Discus Events To Be Held Today, 3:30

All men entering the hammer and discus events of the Interclass track meet must report to Briggs Field at 3:00 P.M. today to enter in their event.

The hammer throw and discus events must be run off before Saturday because the field will be used by the soccer team on Saturday afternoon when it plays Dartmouth.

Beaver Key Games For Round Robin Series Announced

Senior A Will Meet Senior B In Opening Contest On Saturday

After a month of preliminary games, the fraternity and dormitory teams which have been left uneliminated to play in the Beaver Key round-robin football tourney are Senior A, Senior B, Sigma Chi, Theta Chi, and S.A.E. The following is the schedule:

Saturday, Nov. 14			
Senior B.	vs.	Senior A.	
Sunday, Nov. 15			
Senior B	vs.	Sigma Chi	
Theta Chi	vs.	S.A.E.	
Sunday, Nov. 22			
Theta Chi	vs.	Senior A.	
S.A.E.	vs.	Senior B.	
Saturday, Nov. 28			
Sigma Chi	vs.	Theta Chi	
Senior A.	vs.	S.A.E.	
Sunday, Nov. 29			
Senior B.	vs.	Theta Chi	
Senior A.	vs.	Sigma Chi	

BEAVER KEY RULES

The Beaver Key round-robin touch football tourney will be played under the following regulations. Points which these rules fail to cover will be governed by the regular six-man football rules. The official Beaver Key rules are as follows:

Number of Players

Eight players shall constitute a team, five linemen and three backfield men both on offense and defense. Unlimited substitution at all times.

Equipment

Players are prohibited from wearing any type of cleated shoe. No pads of any kind are allowed.

Kick-Off

The kick-off shall be made on the

Captain Carpenter Out On Injuries, Will See Action Against Green

The Tech varsity soccer team was held to the 2 to 2 tie by a strong Tufts squad in the game beginning at 3:30 P.M. on Briggs Field last Wednesday. Captain Warren Carpenter did not play because of injuries incurred in the Beaver Key football tournament and since Coach John Craig thought it would be better to save him for the game with Dartmouth tomorrow. It was the opinion of some of the players that neither team played as well as it might. The game was slowed down somewhat by the surplus amount of penalties and a heavy west wind blowing lengthwise over the field. However, Beaver goalie, Libby, played an excellent game, warding off many thrusts at our goal and saving it in a penalty shot.

The Jumbos scored in the first quarter, then followed it with a second in the next quarter. Tech answered with a couple of goals. Tom Momose, playing his usual good game, neatly passed the ball and Slawson put it through with a well placed kick. The third and fourth quarters followed scoreless, and two five-minute overtime periods were played with neither side scoring.

Since the referee failed to show up, freshman soccer coach Fenmen, who was a member of last year's varsity team, had to fill this position.

The team line-up was as follows for Tech: goalie, Libby; fullbacks, McFaull and Coverdale; halfbacks, Richardson, Chapin, and Loven, with Ihde and Engelmann substituting; forwards, LaVallee, Momose, Ihde, Slawson, and Abbott, with Heckel as substitute.

The Tufts line-up was: goalie, Flanagan; fullbacks, Malo and Ryan, with Waldron substituting; halfbacks, Scott, Shepherd, and Lynch; forwards, Belle, Kugler, Der, Gehling, and Morgenthal.

After the well-played game with Springfield last Saturday, everyone is looking forward to a close game with Dartmouth tomorrow. The game is scheduled for 2:30 P.M. at Briggs Field and will wind up the soccer season.

30 yard line. The ball must be kicked in some manner, not thrown. Receiving team must line up at least 20 yards from the point of kick.

Downs

A team is allowed four downs to make 10 yards. The ball may be kicked on any down, but the oppos-

Solons Approve Own Budget For 1942-1943

Changes In M.I.T.A.A. Constitution Given Approval Of Board

(Continued from Page 1)

Institute Committee all the funds for the various subcommittees of that organization are allotted. These include sums for the Budget Committee, the Elections Committee, the Walker Memorial Committee, the Student Faculty Committee and \$967 for the expenses of the All Tech Smoker held for entering freshmen on registration day.

The fund for the classes receives \$1,010.47 from the Institute as dues from the individual members and is distributed among the classes in proportion to the number of men in each class. This money then comes under the control of the secretary-treasurer of the respective classes, with the approval of the Institute Committee.

Class "A" Activities Receive Allowances

The Reserve and Contingency Fund has an allotment of \$15,597.08 of which the Quadrangle Club gets \$25 for selling freshman ties, the Outing Club gets \$210, the Musical Clubs, \$717.50, the Debating Society, \$450, and the Beaver Key Society \$150. Although they are the only Class "A" activities receiving money from the Budget Committee, Frank E. Briber, Jr., '43, chairman of the committee, said that it was planned to make this allocation every year.

Changes were approved in the M.I.T.A.A. constitution in order to remove the chairman of the Budget Committee from the Executive Committee. This constitution change also included several other minor variations in the policies of the Athletic Association, which according to Kenneth R. Wadleigh, '43, have been practiced for some time.

The motion concerning the taking of \$100 from the treasury of the Class of 1944, was amended to specify that it was to be used to buy war bonds, and was passed after it was explained that the Junior Prom Committee wished to increase the number of bonds to be given away at the dance.

The motion concerning the changes in the Dormitory which was published in The Tech on Tuesday was not formally made as it was not worded properly. This motion will be made at the next meeting.

Dramashop Play

(Continued from Page 1)

cast and, according to Professor Fuller, "show a good promise that Dramashop will continue for a long time to come, in spite of the impending loss of many of its experienced actors." "You Can't Take It With You" has many veterans of other plays in its cast. Frieda S. Omansky, '46, who plays the part of Penelope, took the part of Mama in Dramashop's production of "The Guardsman," and Teresa in "It's Time We Learned." Mildred B. Edwanson, '46, who plays Alice Sycamore, took the part of the maid in "The Guardsman" and Carmen in "It's Time We Learned." Marion H. Ferris, '45, who has the part of Essie, played Chicha Galvez in "It's Time We Learned." Tio Manuel, in the same play, was taken by L. William Katz, '43, who portrays the part of Mr. Kirby in "You Can't Take It With You," and Dick Hubbard was played by Jasper Ward, '43, who is now taking the role of Paul Sycamore. Harold A. Miller, '44, who is playing Mr. DePinna, was starred in "Ten Nights in A Bar Room" as Sample Switchell. Mary E. Guinan, '44, who is Olga, took the part of Mrs. Morgan in that same play, and has played in many others.

Tickets for the play, at 75 cents apiece, have been on sale all week and are still being sold in the Lobby of Building 10, at the T.C.A.,

Phos Is Terrified As Game Against The Tech Nears

The time has come, tradition says, when the scrawny sons of Phos hang their tails between their legs and slink quietly away at the sight of the brawny boys from The Tech. The cause of the Phoslett's terror is the thought of the approaching gridiron duel.

Every year always finds a group of frightened Voo Dooers huddled at the far end of the football field, awaiting the beating they know will come. Fear of losing face is all that keeps them coming back for more. Last year some terrified Voo Doo man (? found the pigskin nestling comfortably in his arms; seeking to get rid of the ball in the face of impending doom, not one comrade could he find. Nothing remained for him to do but run. Dazed from fright, he tore off in the direction of The Tech goal line, which he crossed on his way to the protection of his room.

The game is to be held at 1:30 P.M. at Briggs Field the Saturday of the Junior Prom week-end.

BEAVER KEY RULES

(Continued from Page 3)

ing team must be notified on a kick and allowed time for them to line up in their positions.

Passing

Forward passes must begin behind the line of scrimmage. The three backfield men and the two ends only are eligible to receive a pass. The ball may be passed over the goal line once in a period of four downs without penalty. The second incomplete pass over the goal line in the same series of downs shall be a touchback.

Fumbles

A fumble on the field of play shall be declared dead at the spot of fumble, and shall be declared in the possession of the man making the fumble. The Opponents cannot recover such a fumble. On the kick-off, or a pass from center, the opposing team may recover the ball and advance it, the defensive team may recover legally, but may not advance the ball.

Touching

Touching must be made at least one hand on any part of the runner's body.

Blocking

Blocking shall be allowed on the line of scrimmage and in the open, but the blocker must not leave his feet during the block.

Centering

Centering must be done through the legs.

Point After Touchdown

The point after touchdown shall be made from the three yard line.

Penalties

Illegal blocking	10 yds.
Holding	10 yds.
Tripping	10 yds.
Offside	3 yds.

Interference with pass receiver. Pass is complete at the spot of foul. ANY TEAM NOT ON THE FIELD OF PLAY WITHIN 15 MINUTES AFTER SCHEDULED TIME. DEFINITELY FORFEITS THAT GAME.

and at the Information Office. Gunther H. Baldauf, business manager, has stated that sales have been very satisfactory to date and that he expects a good audience on both nights.

The Reader Speaks

(Continued from Page 2)

more than ever before excellent leadership will be required. We state excellent leadership rather than good leadership because it will take more than good leadership to make young men act as well trained troops in any type of crisis. It is now time for the Military Science Department to present a program whereby officer candidates of the Advanced ROTC, men of the Basic ROTC, men of the ERC, and other interested men may benefit by further instruction.

There are many possible additional responsibilities that men of Technology could assume in order to increase their leadership ability. Morning drills, daily organized physical training, athletic games requiring teamwork, further instruction and practice in the use of infantry weapons, a rigorous training schedule as to diet and sleep, the exercise of military discipline and courtesy, the performance of special tasks that have a military relation to the course of engineering study, outdoor maneuvers, parades and reviews will all help to build leaders.

It is true that engineering studies would be more intensified for the Tech man because he would have to accomplish the same amount of work in less time. The Tech engineer is inevitably going to take a more active part in the world conflict whether he has the guts to admit it now or not. It will be better in the long run for him to be able to handle himself as well as be capable of guiding other men than for him to become an immediate expert in his engineering field. If the Tech engineer is honest with himself, he will realize that his ability to live through the war will depend more on his leadership qualities than his engineering attributes. Let us remember that there are men dying today who were never lucky enough to have become engineers.

Sincerely,
Mortimer W. Meyer, Jr.

Freshman Camp

(Continued from Page 1)

letics should be followed; whether a tour, formal speeches, or merely informal gatherings with representatives of the various groups would be most desirable. Both the importance of the activity exhibitions in the Walker Lounges and the faculty-counselor ball game are open for comment in the questionnaire. Another question opens for discussion the problem of reviving the "dunk-the-Soph-prexy" tradition in an effort to create more class spirit.

In addition, the questionnaire sent to the members of the Class of 1946 adds an opportunity for the freshmen to list in order of preference the three speakers they enjoyed most as well as the three they enjoyed least. The form concludes with the general question: "What did you fail to get at Freshman Camp that you believe you should have gotten?"

Since the T.C.A. contributions this Fall have fallen considerably below the contemplated budget, the results of these questionnaires may take on added value. It is suggested by Ottinger that both freshman and counselor bear this in mind when filling out the blanks.
